Introduction

The CWS users may come across issues which need resolution. These issues need to be addressed promptly. The Help and Support / ticket management system comes in handy for this. It is designed for the users to raise, track, and resolve issues related to CWS. It also enables the users to set ticket priorities based on their importance. This manual guides the users on the usage of Ticket Management System.

Logging On

- 1 Open a browser (Chrome or Mozilla Firefox) and enter the URL in the **Address Bar**.
- 2 Click **Login** link located in the upper-right corner of the window. The login screen is displayed as shown below.

The screenshot shows the Z-ticket Login page. At the top is a dark navigation bar with links: HOME, ABOUT KAT, CAUSE LIST, CASE STATUS, JUDGEMENTS, REPORTS, NOTIFICATIONS, EVENTS, and LIVE COURT. Below this is a light gray background. In the center is a white login box with a dark header labeled 'Login' and a lock icon. Inside the box, there are two text input fields: 'User Name' and 'Password'. Below the 'Password' field is a 'Remember me' checkbox. To the right of the 'Password' field is a link 'Forgot Password?'. At the bottom right of the box is a dark 'Sign in' button. At the bottom center of the box is a link 'New User? Register now'.

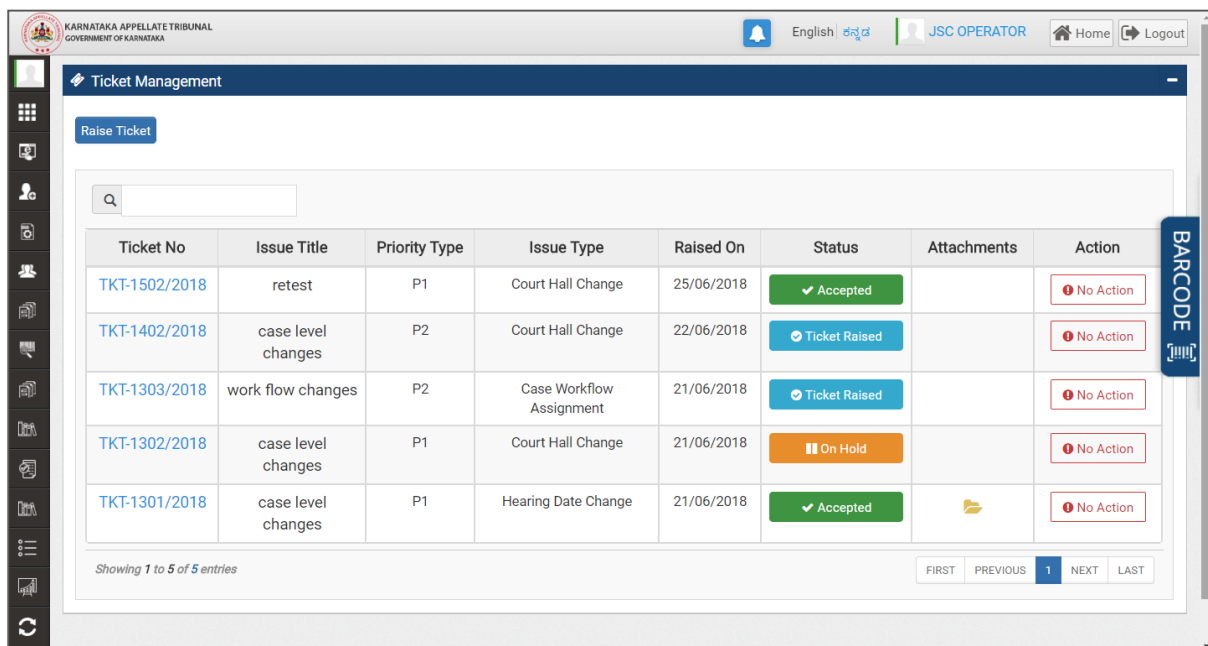

- 3 Enter the user name in the **User Name** text box.
- 4 Enter the password in the **Password** text box.
- 5 Select **Remember me** check box if you want the system to remember your password.
- 6 Click **Sign in**.

 If you are not a registered user, click **Register now**, select the **User Type**, enter the required details, and click **Submit**.

Raising Ticket

This feature allows the CWS users to raise a ticket whenever they come across an issue with the CWS.

- 1 On log on, go to **Dashboard** → **Ticket Management / Help and Support**. The following screen is displayed.

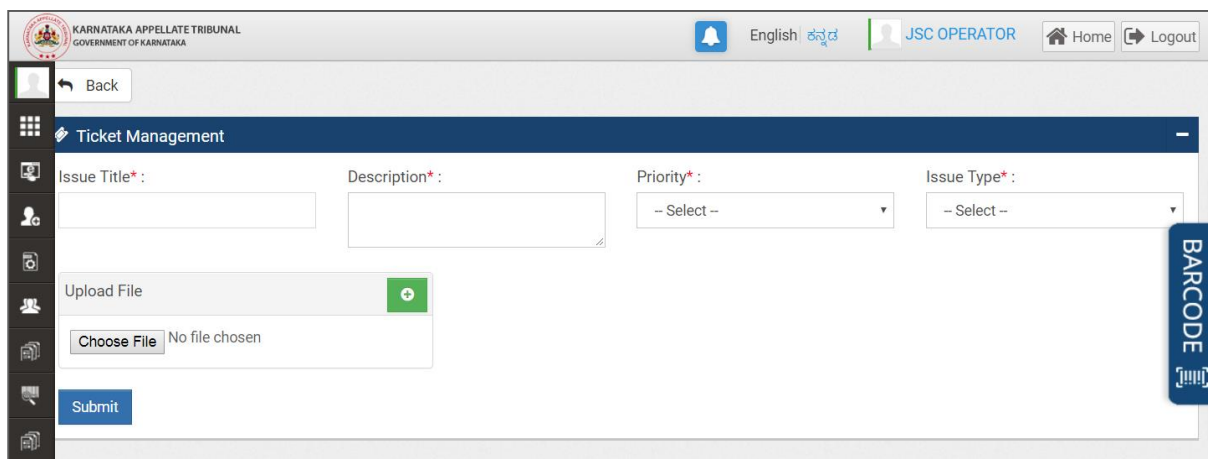

The screenshot shows the Ticket Management dashboard for the Karnataka Appellate Tribunal. The dashboard includes a sidebar with navigation icons and a main content area with a 'Raise Ticket' button. Below the button is a table listing tickets.

Ticket No	Issue Title	Priority Type	Issue Type	Raised On	Status	Attachments	Action
TKT-1502/2018	retest	P1	Court Hall Change	25/06/2018	Accepted		No Action
TKT-1402/2018	case level changes	P2	Court Hall Change	22/06/2018	Ticket Raised		No Action
TKT-1303/2018	work flow changes	P2	Case Workflow Assignment	21/06/2018	Ticket Raised		No Action
TKT-1302/2018	case level changes	P1	Court Hall Change	21/06/2018	On Hold		No Action
TKT-1301/2018	case level changes	P1	Hearing Date Change	21/06/2018	Accepted		No Action

Showing 1 to 5 of 5 entries

Navigation: FIRST, PREVIOUS, 1, NEXT, LAST

- 2 Click **Raise Ticket** on the left-upper corner. The ticket management screen is displayed as shown below.

The screenshot shows the 'Raise Ticket' form. It includes fields for 'Issue Title*', 'Description*', 'Priority*', and 'Issue Type*'. There is also an 'Upload File' section with a 'Choose File' button and a 'Submit' button.

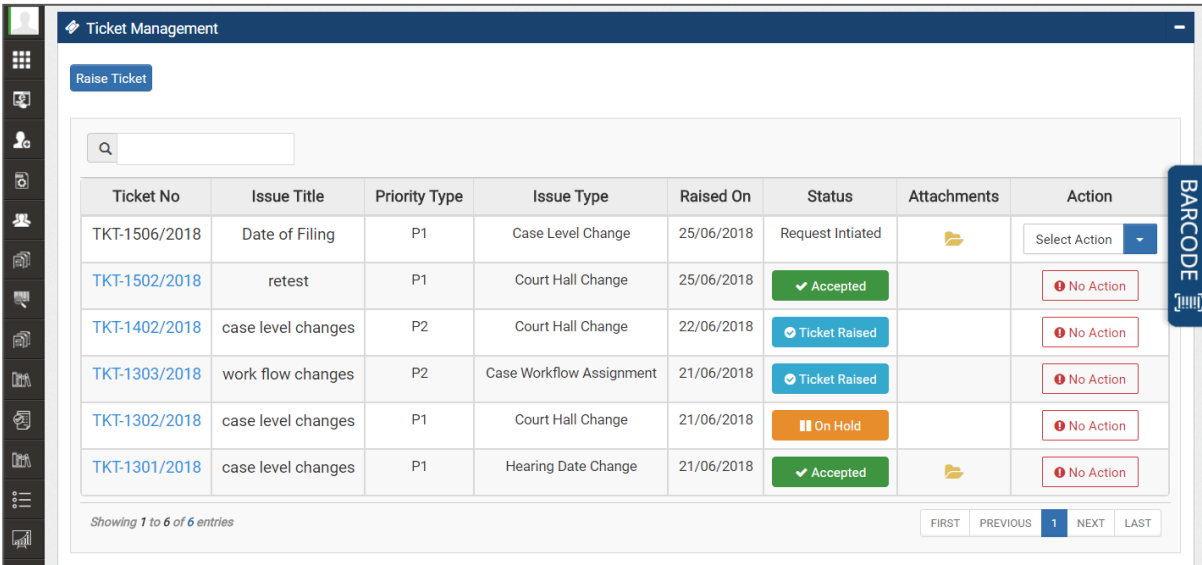

- 3 Enter the details as described in the following table and then click **Submit**. Ticket Management screen is displayed with the status **Request Initiated**.

Field	Description
Issue Title	Enter an appropriate title for the problem faced.
Description	Enter a brief description of the problem.
Priority	Select the relevant priority from the Priority drop-down list. The priority is selected based on the importance and urgency to resolve.(P1 will be the Highest priority and so on)-
Issue Type	Select the relevant option from the Issue Type drop-down list.
Choose File	Click Choose File to attach a file.

Editing Ticket Raised

This feature allows the CWS user to edit a ticket already raised. If the user has submitted the ticket using the **Submit Ticket** option under **Action**, then the user will not be able to edit it.

- 1 On log on, go to **Dashboard**→**Ticket Management**. The list of tickets raised is displayed as shown below.

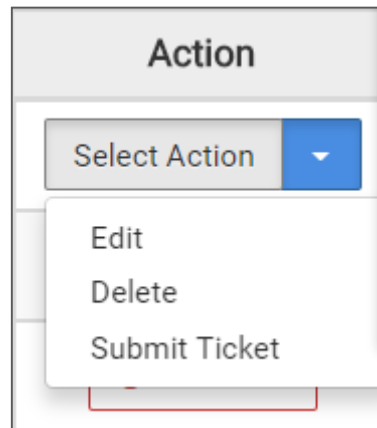

The screenshot shows the 'Ticket Management' interface. At the top, there is a 'Raise Ticket' button. Below it is a search bar. The main table displays a list of tickets with the following columns: Ticket No, Issue Title, Priority Type, Issue Type, Raised On, Status, Attachments, and Action. The table contains 6 entries. The 'Action' column has a dropdown menu for the first row and buttons for the others. A 'Barcode' icon is visible on the right side of the table.

Ticket No	Issue Title	Priority Type	Issue Type	Raised On	Status	Attachments	Action
TKT-1506/2018	Date of Filing	P1	Case Level Change	25/06/2018	Request Initiated		Select Action
TKT-1502/2018	retest	P1	Court Hall Change	25/06/2018	Accepted		No Action
TKT-1402/2018	case level changes	P2	Court Hall Change	22/06/2018	Ticket Raised		No Action
TKT-1303/2018	work flow changes	P2	Case Workflow Assignment	21/06/2018	Ticket Raised		No Action
TKT-1302/2018	case level changes	P1	Court Hall Change	21/06/2018	On Hold		No Action
TKT-1301/2018	case level changes	P1	Hearing Date Change	21/06/2018	Accepted		No Action

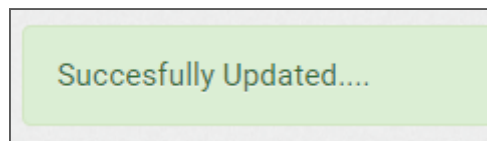

Showing 1 to 6 of 6 entries

FIRST PREVIOUS 1 NEXT LAST

- 2 In the **Search** box  , enter the Ticket No. The issue relevant to the Ticket No is displayed.
- 3 In the **Action** column, click **Select Action**. The following options are displayed.

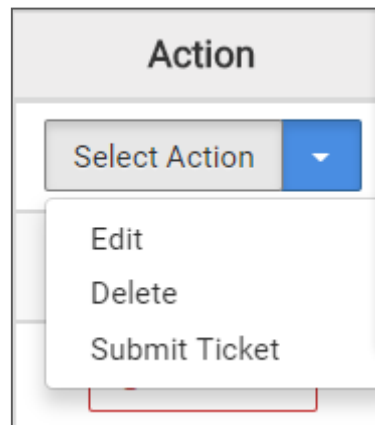

- 4 Click **Edit**. The Ticket Management screen is displayed.
- 5 Edit the details as required and then click **Submit**. A confirmation message is displayed in the **Ticket Management** screen as shown below.

Deleting Ticket Raised

This feature allows the CWS user to delete a ticket already raised. If the user has submitted the ticket using the **Submit Ticket** option under **Action**, then the user will not be able to delete it.

- 1 On log on, go to **Dashboard** → **Ticket Management**. The ticket management screen is displayed.
- 2 In the **Search** box  , enter the Ticket No. The issue relevant to the Ticket No is displayed.
- 3 In the **Action** column, click **Select Action**. The following options are displayed.

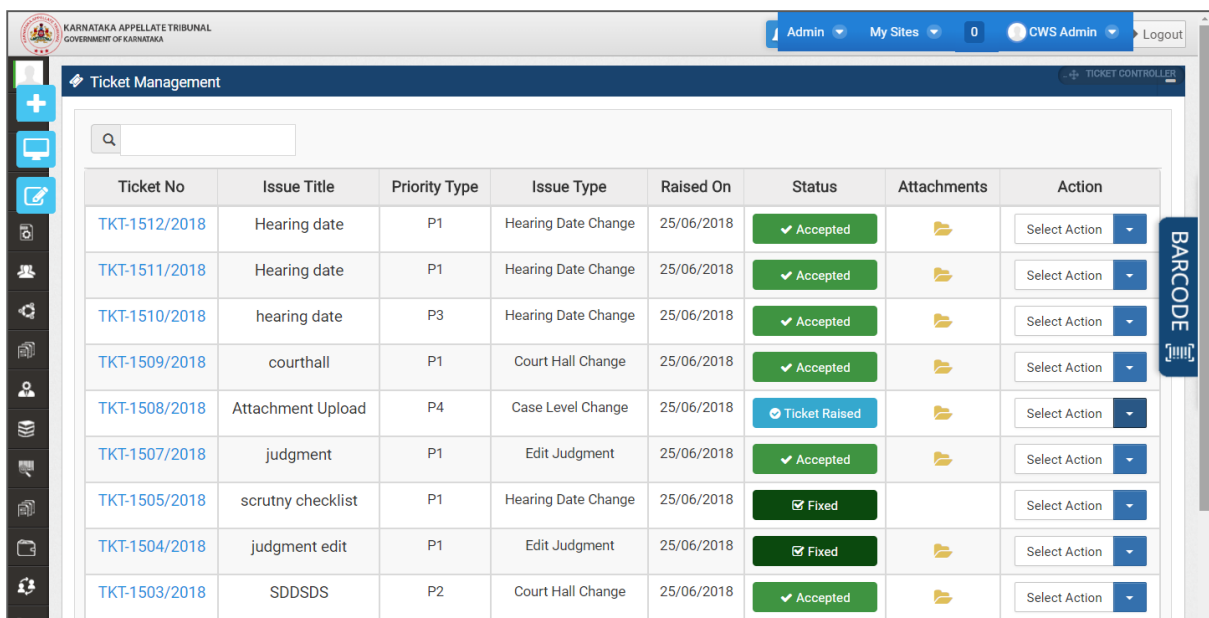

- 4 Click **Delete**. The ticket is deleted.

Accepting Ticket

This feature allows the Reviewer to accept the tickets raised by other users. Only the tickets that have a status of **Ticket Raised** can be accepted. On acceptance by the Reviewer, the ticket will be forwarded to a developer for resolution.

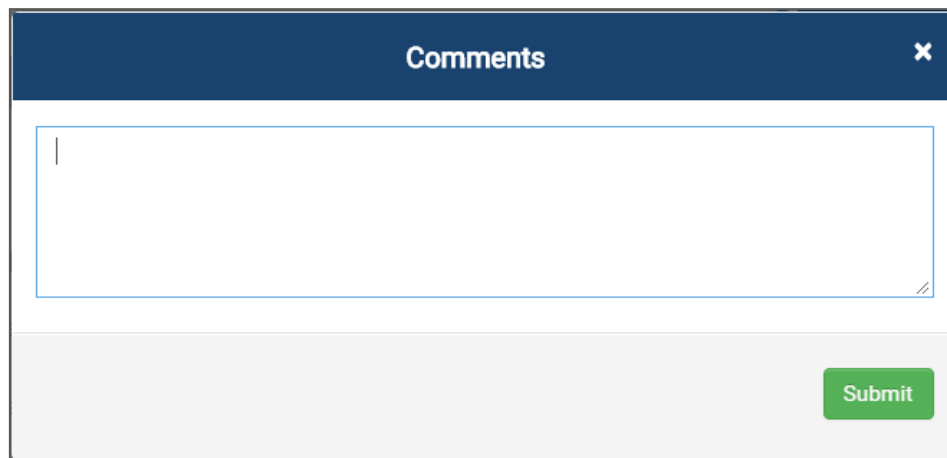

- 1 On log on, go to **Dashboard** → **Ticket Management**. The ticket management screen is displayed as shown below.

Ticket No	Issue Title	Priority Type	Issue Type	Raised On	Status	Attachments	Action
TKT-1512/2018	Hearing date	P1	Hearing Date Change	25/06/2018	✓ Accepted		Select Action
TKT-1511/2018	Hearing date	P1	Hearing Date Change	25/06/2018	✓ Accepted		Select Action
TKT-1510/2018	hearing date	P3	Hearing Date Change	25/06/2018	✓ Accepted		Select Action

- 2 In the **Search** box , enter the Ticket No. The issue relevant to the Ticket No is displayed.

- 3 From the **Select Action** drop-down list, select **Accept**. The comments section is displayed as shown below.

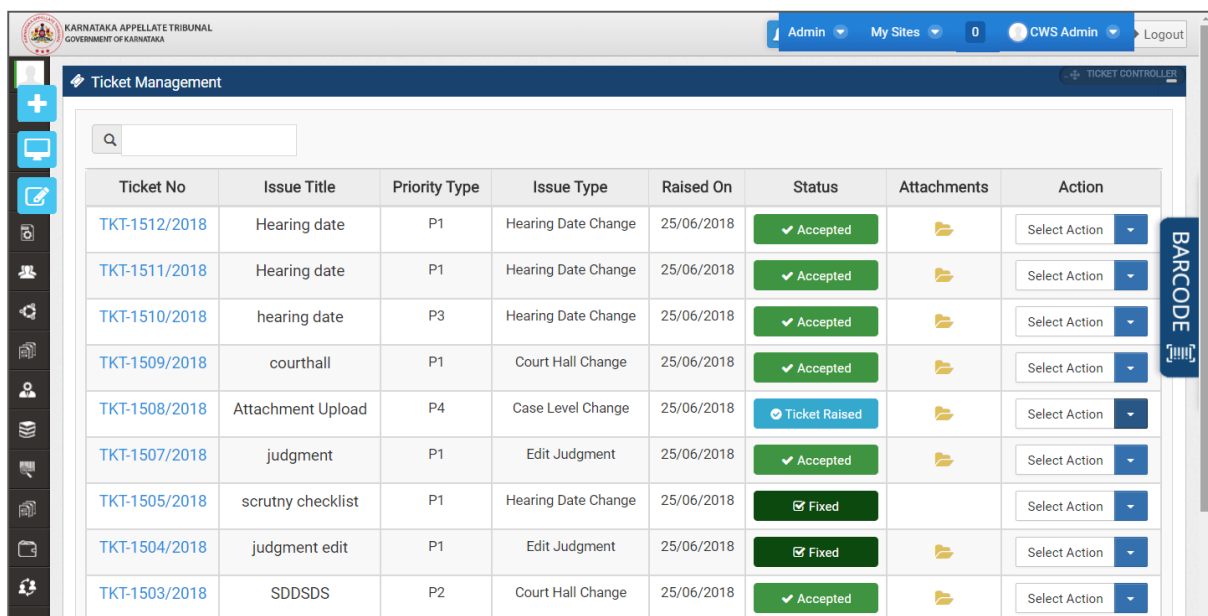

A screenshot of a 'Comments' modal window. It has a dark blue header with the title 'Comments' and a close button (X). Below the header is a large text input area with a cursor at the start. At the bottom right of the modal is a green 'Submit' button.

- 4 Enter comments if any and then click **Submit**.

Rejecting Ticket

This feature allows the Reviewer to reject the tickets raised by CWS users. Even the tickets that have been accepted can be rejected and the tickets that have been rejected can be accepted.

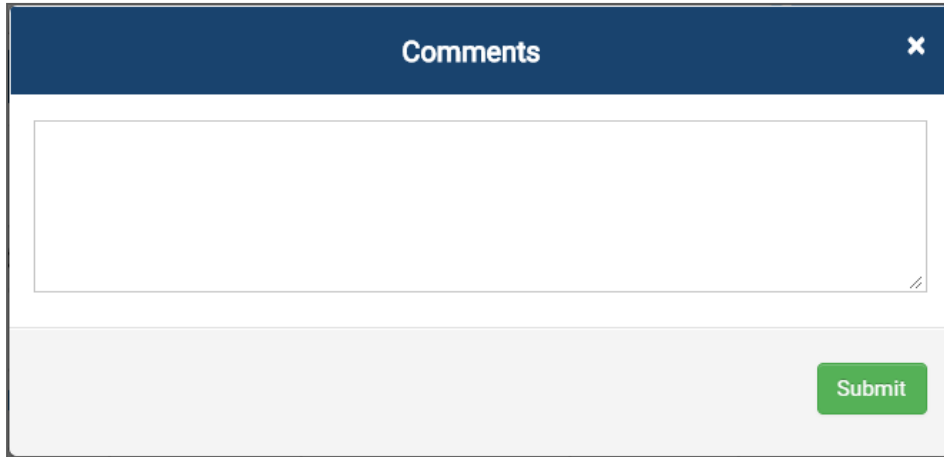

- 1 On log on, go to **Dashboard** → **Ticket Management**. The ticket management screen is displayed as shown below.

A screenshot of the 'Ticket Management' dashboard. The top navigation bar includes 'Admin', 'My Sites', '0', 'CWS Admin', and 'Logout'. The main content area shows a table of tickets with columns: Ticket No, Issue Title, Priority Type, Issue Type, Raised On, Status, Attachments, and Action. The table contains 9 rows of ticket data. A sidebar on the left has various icons, and a 'Barcode' button is on the right.

Ticket No	Issue Title	Priority Type	Issue Type	Raised On	Status	Attachments	Action
TKT-1512/2018	Hearing date	P1	Hearing Date Change	25/06/2018	✓ Accepted		Select Action
TKT-1511/2018	Hearing date	P1	Hearing Date Change	25/06/2018	✓ Accepted		Select Action
TKT-1510/2018	hearing date	P3	Hearing Date Change	25/06/2018	✓ Accepted		Select Action
TKT-1509/2018	courthall	P1	Court Hall Change	25/06/2018	✓ Accepted		Select Action
TKT-1508/2018	Attachment Upload	P4	Case Level Change	25/06/2018	Ticket Raised		Select Action
TKT-1507/2018	judgment	P1	Edit Judgment	25/06/2018	✓ Accepted		Select Action
TKT-1505/2018	scrutny checklist	P1	Hearing Date Change	25/06/2018	✓ Fixed		Select Action
TKT-1504/2018	judgment edit	P1	Edit Judgment	25/06/2018	✓ Fixed		Select Action
TKT-1503/2018	SDDSDS	P2	Court Hall Change	25/06/2018	✓ Accepted		Select Action

- 2 In the **Search** box  , enter the Ticket No. The issue relevant to the Ticket No is displayed.
- 3 From the **Select Action** drop-down list, select **Reject**. The following screen is displayed.

A dialog box titled "Comments" with a close button (X) in the top right corner. It contains a large text area for entering comments and a green "Submit" button at the bottom right.

- 4 In the **Comments** box, enter the reason for rejection and then click **Submit**.
- 5 The status of the ticket is changed to **Rejected** as shown below.

Placing Tickets on Hold

This feature allows the Reviewer to place the tickets on hold.

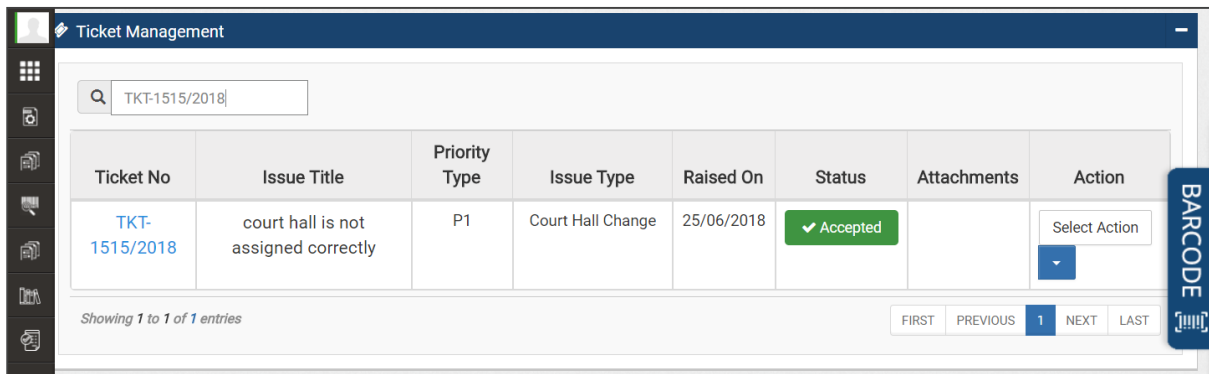

- 1 On log on, go to **Dashboard** → **Ticket Management**. The ticket management screen is displayed.
- 2 In the **Search** box  , enter the Ticket No. The issue relevant to the Ticket No is displayed.
- 3 From the **Select Action** drop-down list, select **On Hold**. The Comments section is displayed.
- 4 Enter the reason for placing the ticket on hold and click **Submit**. The status is changed to **On Hold** as shown below.

On Hold

Attending Ticket

This feature allows the developer to attend the issues raised by the users. Only issues that are accepted by the Reviewer are displayed here.

- 1 On log on, go to **Dashboard** → **Ticket Management**. The ticket management screen is displayed.
- 2 In the **Search** box, enter the Ticket No. The issue relevant to the Ticket No is displayed as shown below.

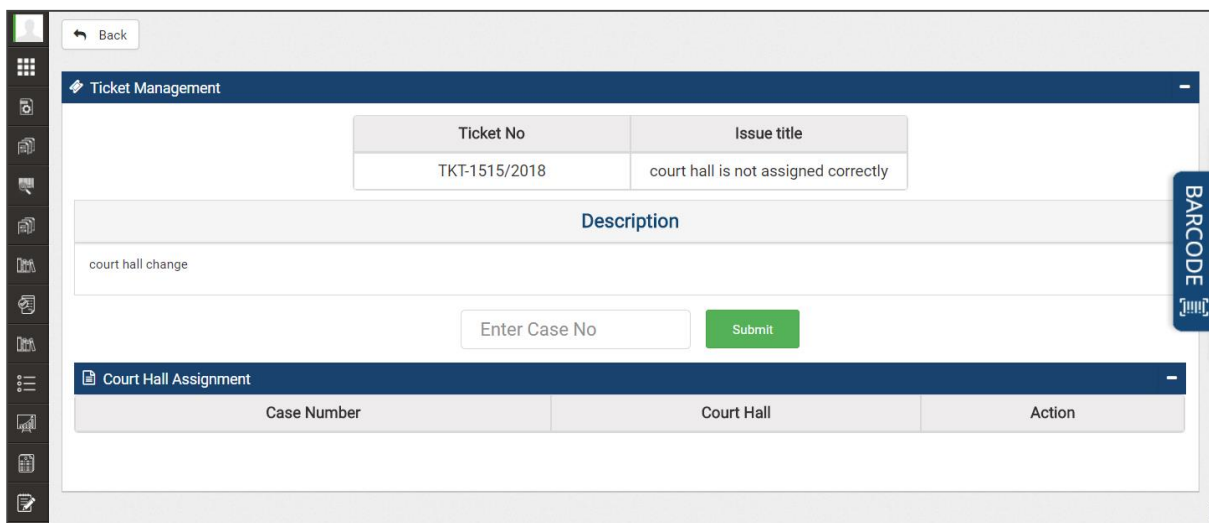

The screenshot shows the 'Ticket Management' dashboard. A search bar at the top contains 'TKT-1515/2018'. Below it is a table with the following data:

Ticket No	Issue Title	Priority Type	Issue Type	Raised On	Status	Attachments	Action
TKT-1515/2018	court hall is not assigned correctly	P1	Court Hall Change	25/06/2018	Accepted		Select Action

Below the table, it says 'Showing 1 to 1 of 1 entries'. At the bottom right, there are navigation buttons: FIRST, PREVIOUS, 1, NEXT, LAST. A 'BARCODE' button is visible on the right side.

- 3 Click the **Select Action** drop-down list and then select **Attend**. The issue description appears as shown below.

The screenshot shows the 'Ticket Management' dashboard with a 'Back' button at the top left. The main content area displays the details of the ticket TKT-1515/2018. It includes a table with the following data:

Ticket No	Issue title
TKT-1515/2018	court hall is not assigned correctly

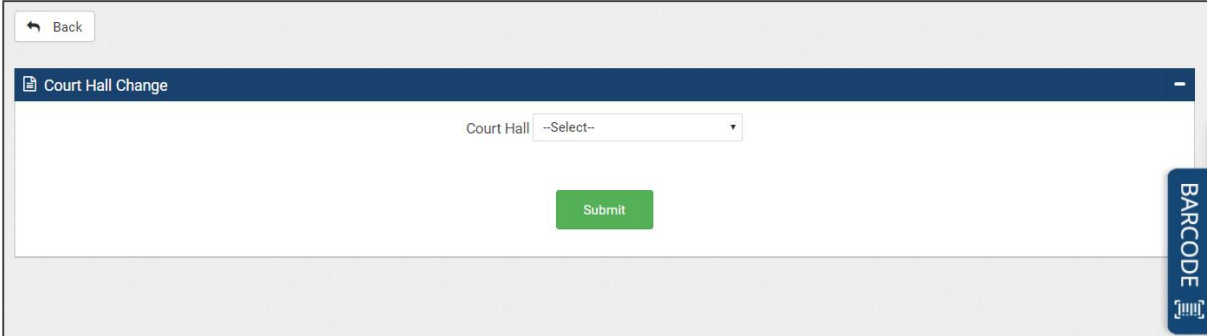

Below this table is a 'Description' section with the text 'court hall change'. There is an 'Enter Case No' text box and a 'Submit' button. At the bottom, there is a 'Court Hall Assignment' section with a table:

Case Number	Court Hall	Action
-------------	------------	--------

A 'BARCODE' button is visible on the right side.

- 4 Enter the relevant case number in the **Enter Case No** text box and then click **Submit**. The Court Hall Assignment fields are populated.

- 5 Click **Edit**. The edit screen is displayed as shown below.

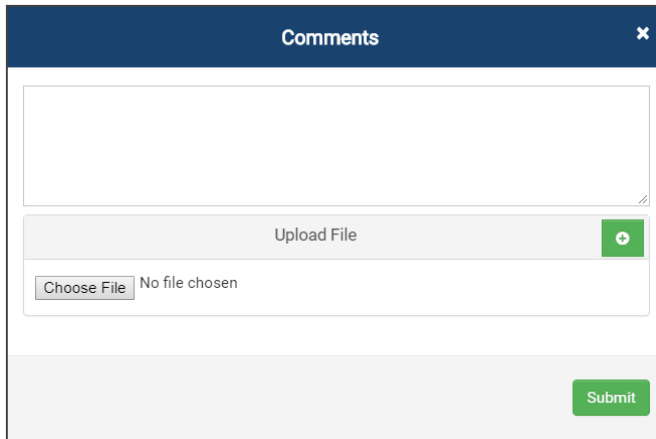

- 6 Make the required changes and then click **Submit**.

Marking Ticket as Fixed

This feature allows the developer to mark the issues as fixed after attending and resolving the issues.

- 1 On log on, go to **Dashboard** → **Ticket Management**. The ticket management screen is displayed.
- 2 In the **Search** box, enter the Ticket No. The issue relevant to the Ticket No is displayed.
- 3 Click the **Select Action** drop-down list and then select **Fixed**. The **Comments** section appears as shown below.

- 4 In the text area, enter a brief description on resolving the issue.
- 5 Click **Choose File** and attach a screenshot of resolution or any other relevant document or image file.

- 6 Click  to attach another file.
- 7 Click **Submit**. The ticket status changes to Fixed as shown below.

Ticket Management							
Ticket No	Issue Title	Priority Type	Issue Type	Raised On	Status	Attachments	Action
TKT-1902/2018	Date of Filing for connected cases	P1	Hearing Date Change	27/06/2018			Select Action ▼
TKT-1803/2018	Hearing date	P1	Hearing Date Change	26/06/2018			No Action
TKT-1802/2018	case level	P1	Case Level Change	26/06/2018			Select Action ▼

Marking Ticket as Resolved

This feature allows the Reviewer to mark the issues as Resolved after the developer has fixed the issues.

- 1 On log on, go to **Dashboard** → **Ticket Management**. The ticket management screen is displayed.
- 2 In the **Search** box, enter the Ticket No. The issue relevant to the Ticket No is displayed.
- 3 Click the **Select Action** drop-down list and then select **Resolved**. The **Comments** section appears as shown below.

Showing 1 to 1 of 1 entries					FIRST	PREVIOUS	1 NEXT LAST

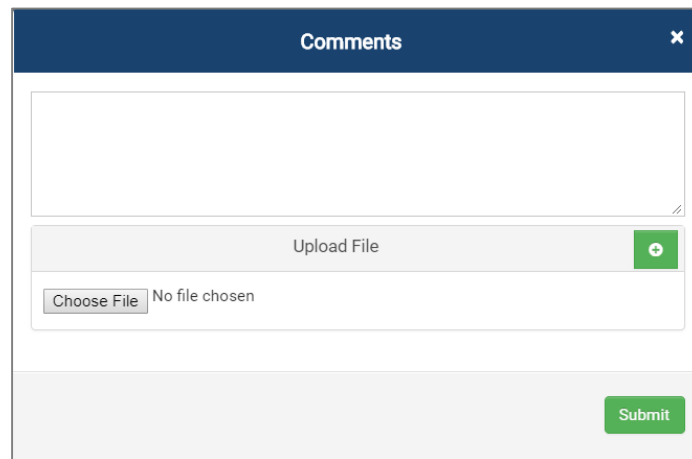

Reopening Ticket

This feature allows the CWS user to reopen a ticket if he is not satisfied with the solution. The Reviewer is also allowed to reopen the tickets.

- 1 On log on, go to **Dashboard**→**Ticket Management**. The ticket management screen is displayed.
- 2 In the **Search** box, enter the Ticket No. The issue relevant to the Ticket No is displayed.
- 3 Click the **Select Action** drop-down list, Re-Open and Close options are displayed as shown below.

Ticket Management							
TKT-1902/2018							
Ticket No	Issue Title	Priority Type	Issue Type	Raised On	Status	Attachments	Action
TKT-1902/2018	Date of Filing for connected cases	P1	Hearing Date Change	27/06/2018	Resolved		Select Action
TKT-1703/2018	work flow changes	P1	Case Workflow Assignment	26/06/2018	Request Initiated		Re Open Close

- 4 Select **Re Open**. The Comments section appears as shown below.

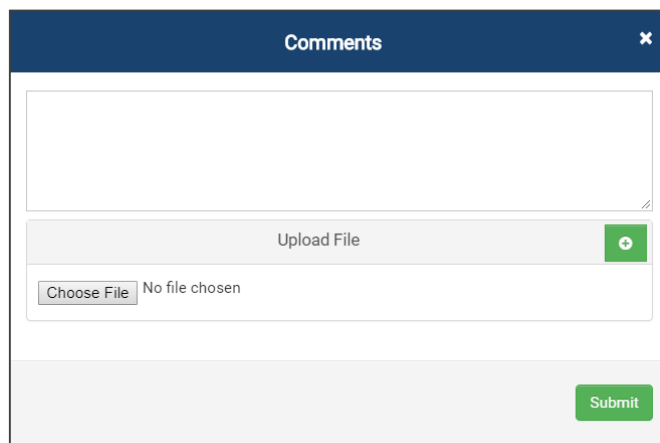

- 5 In the **Comments** text area, enter a brief description for re-opening the issue.
- 6 Click **Choose File** and attach a screenshot of the issue.
- 7 Click  to attach another file.
- 8 Click **Submit**.

Marking Ticket as Closed

This feature allows the CWS user to mark the issues as Closed after the Reviewer has resolved the raised issues.

- 1 On log on, go to **Dashboard** → **Ticket Management**. The ticket management screen is displayed.
- 2 In the **Search** box, enter the Ticket No. The issue relevant to the Ticket No is displayed.
- 3 Click the **Select Action** drop-down list and then select **Close**. The **Comments** section appears as shown below.

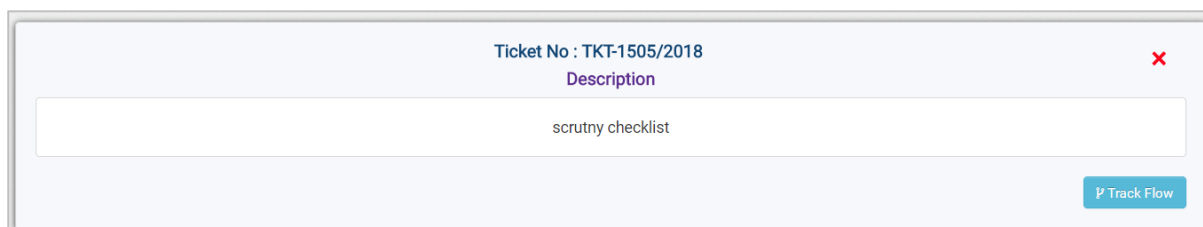

A screenshot of a 'Comments' form. It has a dark blue header with the title 'Comments' and a close button (X). Below the header is a large text area for writing comments. Underneath the text area is a file upload section with a button labeled 'Upload File' and a green plus icon. Below that is a 'Choose File' button and the text 'No file chosen'. At the bottom right of the form is a green 'Submit' button.

- 4 In the text area, enter a brief description on resolving the issue.
- 5 Click **Choose File** and attach a screenshot of resolution or any other relevant document or image file.
- 6 Click  to attach another file.
- 7 Click **Submit**.

Tracking Ticket Flow

This feature allows the users to track the flow of ticket from ticket raised to ticket fixed or current status.

- 1 On log on, go to **Dashboard** → **Ticket Management**. The ticket management screen is displayed.
- 2 In the **Search** box, enter the Ticket No. The issue relevant to the Ticket No is displayed.
- 3 In the **Ticket No** column, click on the Ticket No. The following screen is displayed.

A screenshot of a ticket tracking screen. It has a light blue header with the text 'Ticket No : TKT-1505/2018' and a red close button (X). Below the header is a section titled 'Description' with a text area containing the text 'scrutny checklist'. At the bottom right of the screen is a blue button labeled 'Track Flow'.

-4 Click **Track Flow**. The ticket flow is displayed as shown below.
